

# MY IB STORY

Dear IB program,

You taught me a lot about myself throughout these last two years. You taught me that I am capable of anything I put my mind to and nothing is too difficult to be accomplished. You taught me what it feels like to be a part of a community, something bigger than myself. It wasn't always easy, in fact, sometimes it was infuriating but all the hard work shaped me into the strong woman I am

today. I am blessed to have met the people I did and the lifelong friends I have made. I wouldn't be who I was today and where I am today without you and for that I must thank you.

Love,  
Courtney Worrell
